Study Tours for Students

The most practical solution for Students

VisitEDUestonia's study tours for students provide an engaging and educational adventure, allowing young learners to explore Estonia's innovative education system together with Estonian students. These tours include visits to top schools and interactive workshops, combined with cultural activities to enhance understanding of both academic and social contexts. Tailored to inspire and educate, our student study tours foster a deeper appreciation of global education practices and Estonian culture.

Student Mobility

Student mobility programs offer a transformative opportunity for students to broaden their horizons, gain international experience, and immerse themselves in different cultures. Finland, known for its world-leading education system and innovative teaching methods, provides an exceptional environment for such an experience.

Through our tailored Student Mobility Program, students can spend five enriching days in a Finnish school, learning alongside local peers and experiencing firsthand the unique educational practices that have made Finland a global model. This program is more than just attending classes; it's about forging lifelong friendships, developing intercultural skills, and gaining a deeper understanding of global education.

Example program students

Day 1 Arrival to Tallinn

- Arrival in Tallinn: Transfer from the airport to the city.
- City Sightseeing: Explore Tallinn's medieval Old Town, a UNESCO World Heritage site.
- Program Briefing: Overview of the week's activities.
